

## Compatibility

CEASE™ is an excellent tank-mix or rotational partner in your disease control program, providing the benefits of:

- Shortest re-entry interval (REI) among fungicides (4 hours)
- Resistance management
- Outstanding plant and environmental safety

CEASE (*Bacillus subtilis*, strain QST 713) has been tested for physical compatibility with dozens of commonly used pesticides, nutrients, and adjuvants, and was found to be physically compatible with most inputs.

Table 1. Fungicide Compatibility

Brand Tested	Specific Chemistry	Physical Compatibility
Banner MAXX®	Propiconazole	Yes
Camelot*	Copper salts of fatty and rosin acids	Yes
Chipco® 26GT	Iprodione	Yes
Daconil®	Chlorothanil	Yes
Dithane® DF FORE® Rainshield	Mancozeb	Yes
Eagle® 20 EW	Myclobutanil	Yes
3336®	Thiophanate-methyl	Yes
Heritage®	Azoxystrobin	Yes
Kocide® 101	Copper Hydroxide	Yes
Maneb®	Maneb	Yes
Oxidate®	Hydrogen Dioxide	Yes
Phyton® 27	Copper sulfate pentahydrate	Yes
Aliette® WDG	Fosetyl-al	No

Table 3. Insecticide Compatibility

Brand Tested	Specific Chemistry	Physical Compatibility
Avid® Varsity®	Abamectin	Yes
Conserve® SC	Spinosad	Yes
DiPel® PRO DF	<i>Bacillus thuringiensis</i>	Yes
Merit®	Imidacloprid	Yes
Pounce®	Permethrin	Yes

Table 2. Adjuvant Compatibility

Brand Tested	Physical Compatibility
Bond®	Yes
CoHere®	Yes
Hasten®	Yes
Hyper-Active®	Yes
Intac®	Yes
Kinetic®	Yes
Nu-film®17	Yes
Nu-film®P	Yes
Quest®	Yes
R-11	Yes
R-56	Yes
Silwet L77®	Yes
Spray-Aide®	Yes
Sylgard® 309	Yes
Tactic®	Yes

Table 4. Nutrients Compatibility

Brand Tested	Physical Compatibility
Fish Oil	Yes
Nutri-Grow®	Yes
Nutri-Grow® PK	Yes
